

19th January 2018

Dear Parents and Carers,

Thank you to all the parents who came into school to support their children during the Reception Inspire sessions this week. The sessions focused on the introduction of this half-term's topic about Our World. Everyone had a great time, learning and having fun together.

Next week, Year 4 will be visiting the Hepworth Gallery as part of their Art topic. The children will be learning about the work of Barbara Hepworth and taking part in a clay modelling workshop. Year 1 will also be taking part in a visit to Magna to learn about Materials as part of their Science topic.

The Academy regularly posts messages about activities and attendance achievements on Twitter so please check our account to keep up with latest events. We will also post messages about any changes such as access to the grounds if it is icy. If more parents sign up to Parentmail, we will also be able to use the text messaging service to send information to parents.

Occasionally, we have had problems with the mechanism on the main gates and they have had to be kept open. Please be assured that your children are safe in school and do not have access to these areas until the end of the day when parents come to collect. Please do not take the opportunity to drive in, if you see the gates are open, as it puts children at risk at those times.

Last week, we had three classes who achieved 100% attendance for the first week of term. Well done to 1F, 5B and 6P and let's see if we can have more classes with 100% this term!

Yours sincerely
Mrs A Million
